## Organizational Chart:

## Methodology for Project Management

1. On the first day, we make a team sufficient for executing project considering the volume of the same, organize a meeting at site, study drawings and plan according to the work schedule so that we can start the works from day two.
2. We, from day two, mobilize required manpower for dismantling and site clearance works.
3. Since we have already located the vendors related with those products in local and global markets and are able to establish good interpersonal business relation with them, it will be easy for us to procure those products within time frame.
4. We, first of all, identify goods to be procured whether from local market or from international. Goods available in the local market shall be confirmed and booked within three days from the job awarded date and goods from global market within five days. Out of these booked goods, we start purchasing on priority basis and keeping the same in our warehouse within five days from the job assigned date.
5. We never stop works during holidays by developing out of track work force schedule to achieve the deadline to completion of works.

6. We have categorized our work force in three shifts so that project can run smoothly without any interruption to meet the deadline.
7. Last but not the least, we can assure our valued client that we shall not let you down under any circumstance like quality of works, completion time, code of conduct of contract, lack of communication and everything that you wish to have.
